

# HATFIELD AND COMPANY

## STEAM & HOT WATER PRODUCTS

Hatfield and Company is a distributor and manufacturer's representative of leading technical products and solutions that help our customers improve efficiency and quality, and save money. We specialize in solutions for filtration, instrumentation, valves, safety, and other piping related products. We consider our customers to be our partners and we are committed to being fair, ethical, and honest... every time.

## STEAM TRAPS

*Steam traps provide energy efficiency, minimal steam loss, corrosion resistance, air and CO<sub>2</sub> venting, operation against back pressure, freedom from dirt problems, and long, reliable service.*

## TRAPS WITH CONNECTORS

*Full line of 2 and 4 Bolt Connector Blocks accommodate Inverted, Bucket, Disc, Thermostatic, Float & Thermostatic and Bimetallic traps.*

## STEAM TRACING

*Manifolds place all steam supply valves in one location. Standardizing components and centralizing their location simplifies installation, reduces costs, and makes routine maintenance easier. To complete the system, we offer Dekoron pre-insulated steam & electric tubing.*

## PRE-INSULATED TUBING

*For Steam Distribution and Condensate return lines. Heating mediums include Steam, Hot Water & Oil.*

## THERMOMEGATECH THERMAL RELIEF & DRAIN TEMPERING VALVES

*Protects pumps and mechanical seals from over temperature damage and scalding. Tempers down high-temperature discharge from preventing freezing or lower temperatures to sewer.*

## PRESSURE REDUCING & CONTROL VALVES

*Steam, Air, Liquids Pressure and Temperature Regulators and Multi Use Globe Control Valves available in Cast/Ductile Iron, Carbon Steel, Stainless and Chrome-Molly.*

## ACCELEBAR

*In a class of its own, this highly accurate flow measurement device has a patented no-straight-pipe installation requirement. VERIS Accelabar® provides exceptional versatility, with turndown capabilities over a large range of flow rates.*

*The bullet shape and aerospace design principles that produce a stable flow signal with less propensity to clogging in the presence of dirt or debris.*

*This is the most accurate, reliable and advanced averaging pitot tube on the market today.*

*Reliable, well-known vortex technology in a package that is easy to install and simple to operate. Capable of HART, Modbus, BacNet, or analog outputs with integral pressure and temperature compensation.*

*Due to its simplicity and dependability, the Armstrong Venturi Tube flowmeter is often used in applications where it is necessary for higher turndown rates or lower pressure drops than alternative devices.*

*Additional meters: VERABAR®, In-Line & Insertion Vortex, Venturi. Orifice Plates also available.*

## NANOBUBBLE GENERATOR

*The Nanobubble Generator is a proven solution for the inhibition and removal of scale in water systems. This patented technology is easily installed, has no moving parts, requires no maintenance or additional electrical inputs, and uses no chemicals.*

## HOT WATER SYSTEMS

*Customize a digital hot water generation system to meet your specific needs.*

## HOSE STATION

*Features an intrinsically safe steam and water mixing valve. Easy On/Off and temperature control.*

## HOT WATER MONITORING

*Precision temperature control and monitoring with thermal flush programming. Complies with CMS mandate on Legionella.*

## HEAT EXCHANGE & CONDENSATE RECOVERY

*Optimize your system with custom heat transfer solutions tailored for your specific needs. Recovery systems to return your condensate efficiently.*

*Mechanical  
Condensate Return*

*Electric  
Condensate Return*

*Packaged Return  
Condensate*

## STEAM SYSTEM SURVEY

*Capture your steam trap performance with SAGE® by Armstrong mobile. Now you can own your data & manage your trap population.*

## STEAM ENERGY ANALYSIS

*See your full steam system summary with SAGE® by Armstrong. Energy loss, hot water updates & alerts in real time.*

## STEAM TRAP TESTER

*The SAGE UMT™ wireless hand-held steam trap testing tool, connects to any smart phone or tablet, with built in RFID tag reader.*

## WE OFFER STEAM SYSTEM TRAINING IN HOUSE OR WITH OUR MOBILE STEAM LAB
